DIPLOMA IN PERSONAL TRAINING (DPT)

The Diploma in Personal Training Course is the foundation course in Exercise Science that provides comprehensive theoretical and

practical education, equipping the student with the knowledge base and tools to professionally practice as a qualified, certified Personal Trainer in the fitness industry.

This Diploma is Internationally recognized by REPs India (Member of International Confederation of Registers for Exercise Professionals: ICREPs) under Category- Personal Trainer and is aligned to India's NSQF Level - 4 (Fitness Trainer) which awards the Certification from the Sports, Physical Education, Fitness and Leisure Skill Council (SPEFL-SC).

Successful passing of all examinations will make K11 Diploma holders eligible to be part of the REPs India register and thus gain portability for employment in the Fitness Industries of UAE, Australia, New Zealand, South Africa, Ireland, and Poland.

- INR 9,112/- PER MONTH
- 6 MONTHS EMI
- INR 13,667/- PER MONTH
- 3 MONTHS EMI
- INR 27,334/- PER MONTH

The human body comprises of various joints, tissues and complex systems working together to carry out its functional day to day activities.

A human body can suffer from different issues/ injuries impacting the entire functioning of the body.

Any compromise in the functioning of one system or part affects the entire well-being or the performance in day to day life.

Currently, there is a dearth of Fitness Professionals who can handle clients with such cases.

CPT for Special Populations gives Certified Personal Trainers the added knowledge of various metabolic, musculoskeletal disorders and the contra-indications vis-a-vis those medical

conditions. Thus a CPT-SP is capable of appropriate programming for people with chronic ailments and/ or history of acute condition. The course is developed to give all students an edge over others in their Personal Training Career by providing a knowledge base that allows them to expand their market to include helping people strengthen, and achieve an improvement in physical performance despite their medical issues. Students that are awarded the K11 CPT-SP Certificate will see tremendous growth and recognition in the fitness industry.

In order to do the CPT for Special Populations Course, it is advisable to have cleared the K11 Diploma in Personal Training Course (DPT) first.

- Posture Assessment
- Arthritis
- Poliomyelitis, Vertigo
- Hernia, Diabetes Mellitus, Varicose Veins

The K11 Certified Sports Nutritionist (CSN) Course is specially designed to help qualified Nutritionists, Personal Trainers/ Gym Instructors and Group Fitness Instructors obtain the knowledge required to prescribe

Nutrition Plans for Active, Exercising Individuals & even Competitive Athletes. This Nutrition Course provides in-depth knowledge on Food

Selection, Macronutrient Ratios, Micro Nutrients and Human Physiology related to digestion and metabolism of food. It is about learning Nutrition that is geared towards optimal performance & body composition.

Knowledge of Nutrition along with exercise provides a Fitness Professional complete hold over results. It is a fact that exercise is ineffective in delivering results without it being complemented by sound nutrition.

Once both knowledge bases of Exercise Science and Performance Nutrition are applied, results in clients are assured and the logical conclusion of that is a thriving practice for a Fitness Professional and a dual source of income. Whatever is the personal goal, body composition, metabolism, mindset or specific fitness requirement, the diet prescribed must always be geared towards supporting muscle hypertrophy, loss of body fat and maximizing optimally sustained energy. The Certified Sports Nutritionist Course will guide you on how to design and prescribe diets that perform all of these functions.

The K11 Certified Sports Nutritionist (CSN) is the most up to date and cutting edge course in the industry.
